1 **SECTION 1. SHORT TITLE; FINDINGS.**

2 (a) SHORT TITLE.—This Act may be cited as the
3 “Carl Levin National Defense Authorization Act for Fiscal
4 Year 2015”.

5 (b) FINDINGS.—Congress makes the following find-
6 ings:

7 (1) Senator Carl Levin of Michigan was elected
8 a member of the United States Senate on November
9 7, 1978, for a full term beginning January 3, 1979.
10 He has served continuously in the Senate since that
11 date, and was appointed as a member of the Com-
12 mittee on Armed Services in January 1979. He has
13 served on the Committee on Armed Services since
14 that date, a period of nearly 36 years.

15 (2) A graduate of Detroit Central High School,
16 Senator Levin went on to Swarthmore College, and
17 graduated from Harvard Law School in 1959, gain-
18 ing admittance to the Michigan bar. He served his
19 State as assistant attorney general and general
20 counsel of the Michigan Civil Rights Commission
21 from 1964–1967, and later served his hometown of
22 Detroit as a member of the Detroit City Council
23 from 1969–1973, and as the council’s president
24 from 1974–1977.

25 (3) Senator Levin first served as chairman of
26 the Committee on Armed Services of the United

1 States Senate for a period of the 107th Congress,
 2 and has remained chairman since the 110th Con-
 3 gress began in 2007. He has exercised extraordinary
 4 leadership as either the chairman or ranking minor-
 5 ity member of the committee since the start of the
 6 105th Congress in 1997.

7 (4) Each year, for the past 52 years, the Com-
 8 mittee on Armed Services has reliably passed an an-
 9 nual defense authorization act, and this will be the
 10 36th that Senator Levin has had a role in. In his
 11 capacity as member, ranking member, and chair-
 12 man, he has been an advocate for a strong national
 13 defense, and has made lasting contributions to the
 14 security of our Nation.

15 (5) It is altogether fitting and proper that this
 16 Act, the last annual authorization act for the na-
 17 tional defense that Senator Levin manages in and
 18 for the United States Senate as chairman of the
 19 Committee on Armed Services, be named in his
 20 honor, as provided in subsection (a).

 18 **MISSILE CAPABILITIES.**

19 (a) FINDINGS.—Congress makes the following find-
 20 ings:

21 (1) The capability provided by the nuclear-capable,
 22 air launched cruise missile (ALCM) is critical to
 23 maintaining a credible and effective air-delivery leg
 24 of the triad, preserving the ability to respond to geo-
 25 political and technical surprise, and reassuring

1 United States allies through credible extended deter-
2 rence.

3 (2) In its fiscal year 2015 budget request, the
4 Air Force delayed development of the Long Range
5 Standoff Weapon (LRSO), the follow-on for the
6 ALCM, by three years.

7 (3) The Air Force plans to sustain the current
8 ALCM, known as the AGM-86, until approximately
9 2030, with multiple service life extension programs
10 required to preserve but not enhance existing ALCM
11 capabilities.

12 (4) The AGM-86 was initially developed in the
13 1970s and deployed in the 1980s.

14 (5) The average age of the ALCM inventory is
15 over 30 years old.

16 (6) The operating environment, particularly the
17 sophistication of integrated air defenses, has evolved
18 substantially since the ALCM's inception.

19 (7) The AGM-86 is no longer in production
20 and the inventory of spare bodies for required an-
21 nual testing continues to diminish, posing serious
22 challenges for long-term sustainment.

23 (b) REPORT.—

24 (1) IN GENERAL.—Not later than 180 days
25 after the date of the enactment of this Act, the Sec-

1 retary of the Air Force, in coordination with the
2 Commander of the United States Strategic Com-
3 mand, shall submit to the congressional defense
4 committees a report on the status of the current air-
5 launched cruise missile and the development of the
6 follow-on system, the long-range standoff weapon.

7 (2) ELEMENTS.—The report required under
8 paragraph (1) shall include the following elements:

9 (A) An assessment of the current system’s
10 effectiveness and survivability through 2030, in-
11 cluding the impact of any degradation on the
12 ability of the United States Strategic Command
13 to meet deterrence requirements, such as the

9 **SEC. 801. OPEN SYSTEMS APPROACH TO ACQUISITION OF**
 10 **SYSTEMS CONTAINING INFORMATION TECH-**
 11 **NOLOGY.**

12 (a) OPEN SYSTEMS APPROACH REQUIREMENT.—

13 (1) IN GENERAL.—Except as provided in para-
 14 graphs (2) and (3), each Major Defense Acquisition
 15 Program and Major Automated Information System,
 16 and each other acquisition program the primary pur-
 17 pose of which is the acquisition of an information
 18 technology system, that enters concept development
 19 after January 1, 2016, shall use an open systems
 20 approach in development to achieve agility, rapid ca-
 21 pability enhancement, interoperability, increased
 22 competition, and lower costs over the life cycle of the
 23 program.

24 (2) CASE-BY-CASE EXCEPTION BASED ON COSTS
 25 AND PRACTICALITY.—The requirement under para-

graph (1) shall not apply to an acquisition program if a business case analysis conducted at a point in development where there is sufficient design information to conduct an independent life-cycle cost estimate demonstrates that an open systems approach is more expensive or is not practically achievable.

(3) GENERAL EXCEPTIONS.—

(A) COMMERCIAL OFF-THE-SHELF ITEMS AND SYSTEMS.—The requirement under paragraph (1) does not apply to acquisition programs that consist primarily of commercial off-the-shelf (COTS) end items and systems or modified COTS systems.

(B) URGENT OR EMERGENT OPERATIONAL NEED STATEMENTS.—Systems acquired pursuant to urgent or emergent operational need statements shall not be subject to the requirement in paragraph (1) unless a decision is made to transition the program to a program of record. In the event of such a transition, a business case analysis shall be conducted to consider the life-cycle costs of the program and determine whether to migrate the system to an open systems architecture.

1 (b) ACTIONS REQUIRED.—Not later than January 1,
2 2016, the Secretary of Defense shall take the following
3 actions:

4 (1) Identify computing environments within the
5 Department of Defense that are sufficiently distinct
6 to justify the development of specific Technical Ref-
7 erence Architectures and associated standards nec-
8 essary to support an open systems approach to the
9 development of systems utilizing those computing
10 environments.

11 (2) Identify each mission and functional domain
12 within the Department of Defense that is sufficiently
13 distinct to justify the development of domain-specific
14 services and associated standards necessary to sup-
15 port an open systems approach to the development
16 of systems that will operate in that mission or func-
17 tional domain.

18 (3) Pursuant to section 12(d) of the National
19 Technology Transfer and Advancement Act of 1995
20 (Public Law 104–113; 110 Stat. 783; 15 U.S.C. 272
21 note) and Office of Management and Budget Cir-
22 cular Number A–119, form or use voluntary, con-
23 sensus-based standards bodies to establish the
24 standards required for each of the Technical Ref-

1 erence Architectures and each set of domain-specific
2 services to support open systems approaches.

3 (4) Ensure, in carrying out the actions set forth
4 in paragraphs (1) through (3), that there are not
5 duplicative or competing Technical Reference Archi-
6 tectures, domain-specific services, or standards or
7 standards bodies related to such architectures and
8 services across the Department of Defense.

9 (c) GUIDELINES FOR BUSINESS CASE ANALYSES.—
10 Not later than July 1, 2015, the Director of Cost Assess-
11 ment and Program Evaluation shall issue guidelines for
12 business case analyses as they apply to decisions regarding
13 the adoption of an open systems approach, including re-
14 quirements for comparative life-cycle costs and opportuni-
15 ties for competition and capability upgrades.

16 (d) TREATMENT OF ONGOING AND LEGACY PRO-
17 GRAMS.—Not later than November 1, 2015, the Under
18 Secretary of Defense for Acquisition, Technology, and Lo-
19 gistics shall submit to the congressional defense commit-
20 tees a report—

21 (1) identifying all closed systems that are in de-
22 velopment, production, or deployed status as of Jan-
23 uary 1, 2016, that are or were Major Defense Acqui-
24 sition Programs or Major Automated Information
25 Systems;

1 (2) outlining a process for establishing the pri-
2 ority of migrating each such system and program to
3 an open system; and

4 (3) including a schedule to review the top half
5 of the prioritized list, conduct a business case anal-
6 ysis on each program, and develop plans where ap-
7 propriate to migrate such programs to an open sys-
8 tem within 10 years.

9 (e) DEFINITIONS.—In this section:

10 (1) DOMAIN-SPECIFIC SERVICES.—The term
11 “domain-specific services” means the decomposition
12 of functions and operations in specific mission do-
13 mains into common services that systems operating
14 in those domains would utilize.

15 (2) INFORMATION TECHNOLOGY.—The term
16 “information technology” has the meaning given the
17 term in section 11101(6) of title 40, United States
18 Code.

19 (3) OPEN SYSTEMS APPROACH.—The term
20 “open systems approach” means an integrated busi-
21 ness and technical strategy that—

22 (A) employs a modular design, and uses
23 widely supported and consensus-based stand-
24 ards for its key interfaces;

(B) is subjected to successful validation and verification tests to ensure the openness of its key interfaces; and

(C) uses an open system architecture allowing components to be added, modified, replaced, removed, or supported by different vendors throughout a program's life-cycle in order to afford opportunities for enhanced competition and innovation while yielding significant cost and schedule savings and increased interoperability.

(4) TECHNICAL REFERENCE ARCHITECTURE.—

The term “Technical Reference Architecture” means a system architecture template for a particular computing environment that provides a common vocabulary for implementations to promote consistency and commonality of interfaces and interactions between architectural layers.

1 has been specifically authorized by law to be carried out
2 using multiyear contract authority unless the Secretary of
3 Defense certifies in writing, not later than 30 days before
4 entry into the contract, that each of the following condi-
5 tions is satisfied:

6 “(A) The Secretary has determined that each of
7 the requirements in paragraphs (1) through (6) of
8 subsection (a) will be met by such contract and has
9 provided the basis for such determination to the con-
10 gressional defense committees.

11 “(B) The Secretary’s determination under sub-
12 paragraph (A) was made after the completion of a
13 cost analysis performed by the Director of Cost As-
14 sessment and Program Analysis and such analysis
15 supports the findings.

16 “(C) The system being acquired pursuant to
17 such contract has not been determined to have expe-
18 rienced cost growth in excess of the critical cost
19 growth threshold pursuant to section 2433(d) of this
20 title within 5 years prior to the date the Secretary
21 anticipates such contract (or a contract for advance
22 procurement entered into consistent with the author-
23 ization for such contract) will be awarded.

24 “(D) A sufficient number of end items of the
25 system being acquired under such contract have

1 been delivered at or within the most current esti-
2 mates of the program acquisition unit cost or pro-
3 curement unit cost for such system to determine
4 that current estimates of such unit costs are real-
5 istic.

6 “(E) During the fiscal year in which such con-
7 tract is to be awarded, sufficient funds will be avail-
8 able to perform the contract in such fiscal year, and
9 the future-years defense program for such fiscal year
10 will include the funding required to execute the pro-
11 gram without cancellation.

12 “(F) The contract is a fixed price type contract.

13 “(G) The proposed multiyear contract provides
14 for production at not less than minimum economic
15 rates given the existing tooling and facilities.

16 “(4) If for any fiscal year a multiyear contract to be
17 entered into under this section is authorized by law for
18 a particular procurement program and that authorization
19 is subject to certain conditions established by law (includ-
20 ing a condition as to cost savings to be achieved under
21 the multiyear contract in comparison to specified other
22 contracts) and if it appears (after negotiations with con-
23 tractors) that such savings cannot be achieved, but that
24 substantial savings could nevertheless be achieved through
25 the use of a multiyear contract rather than specified other

1 contracts, the President may submit to Congress a request
2 for relief from the specified cost savings that must be
3 achieved through multiyear contracting for that program.
4 Any such request by the President shall include details
5 about the request for a multiyear contract, including de-
6 tails about the negotiated contract terms and conditions.

7 “(5)(A) The Secretary may obligate funds for pro-
8 curement of an end item under a multiyear contract for
9 the purchase of property only for procurement of a com-
10 plete and usable end item.

11 “(B) The Secretary may obligate funds appropriated
12 for any fiscal year for advance procurement under a con-
13 tract for the purchase of property only for the procure-
14 ment of those long-lead items necessary in order to meet
15 a planned delivery schedule for complete major end items
16 that are programmed under the contract to be acquired
17 with funds appropriated for a subsequent fiscal year (in-
18 cluding an economic order quantity of such long-lead items
19 when authorized by law).

20 “(6) The Secretary may make the certification under
21 paragraph (3) notwithstanding the fact that one or more
22 of the conditions of such certification are not met, if the
23 Secretary determines that, due to exceptional cir-
24 cumstances, proceeding with a multiyear contract under
25 this section is in the best interest of the Department of

1 Defense and the Secretary provides the basis for such de-
 2 termination with the certification.

3 “(7) The Secretary may not delegate the authority
 4 to make the certification under paragraph (3) or the deter-
 5 mination under paragraph (6) to an official below the level
 6 of Under Secretary of Defense for Acquisition, Tech-
 7 nology, and Logistics.”.

24 (1) AUTHORITY.—Upon determination by the
25 Secretary of Defense that such action is necessary in

1 the national interest, the Secretary may transfer
2 amounts of authorizations made available to the De-
3 partment of Defense in this division for fiscal year
4 2015 between any such authorizations for that fiscal

14 MILITARY PERSONNEL AUTHORIZATIONS.—A trans-
15 fer of funds between military personnel authoriza-
16 tions under title IV shall not be counted toward the
17 dollar limitation in paragraph (2).

18 (b) LIMITATIONS.—The authority provided by sub-
19 section (a) to transfer authorizations—

20 (1) may only be used to provide authority for
21 items that have a higher priority than the items
22 from which authority is transferred; and

23 (2) may not be used to provide authority for an
24 item that has been denied authorization by Con-
25 gress.

1 (c) EFFECT ON AUTHORIZATION AMOUNTS.—A
 2 transfer made from one account to another under the au-
 3 thority of this section shall be deemed to increase the
 4 amount authorized for the account to which the amount

7 (d) NOTICE TO CONGRESS.—The Secretary shall
 8 promptly notify Congress of each transfer made under

15 “(a) ESTABLISHMENT.—There is established in the
 16 Treasury of the United States a fund to be known as the
 17 ‘National Sea-Based Deterrence Fund’.

18 “(b) ADMINISTRATION OF FUND.—The Secretary of
 19 Defense shall administer the Fund consistent with the
 20 provisions of this section.

21 “(c) FUND PURPOSES.—Funds in the Fund shall be
 22 available for obligation and expenditure only for construc-

8 following new item:

 “2218a. National Sea-Based Deterrence Fund.”.

9 **SEC. 1003. SENSE OF SENATE ON SEQUESTRATION.**

10 (a) FINDINGS.—The Senate makes the following
11 findings:

12 (1) The budget of the President for fiscal year
13 2015, as submitted to Congress pursuant to section
14 1105 of title 31, United States Code, provides for
15 significant reductions to the military force structure
16 and in military compensation over the course of the
17 future-years defense program, including proposals to
18 restrict pay raises for members of the Armed Forces
19 below the rate of inflation, freeze pay for general
20 and flag officers, reduce the growth of housing al-
21 lowances by requiring members of the Armed Forces
22 to pay 5 percent out-of-pocket for housing costs, re-
23 duce appropriated fund subsidies to the defense
24 commissaries, make significant changes to benefits
25 under the TRICARE program, reduce the end

1 strength of the Army by more than 60,000, retire
2 the A-10 and U-2 aircraft of the Air Force, inac-
3 tivate half of the cruiser fleet of the Navy, and re-
4 duce the size of the helicopter fleet of the Army by
5 25 percent and terminate the Ground Combat Vehi-
6 cle program of the Army.

7 (2) These proposed reductions are the result of
8 the budget caps enacted by Congress in the Budget
9 Control Act of 2011 and reaffirmed (with some re-
10 lief for fiscal years 2014 and 2015) in the Bipar-
11 tisan Budget Act of 2014, which cut more than
12 \$900,000,000,000 from the planned Department of
13 Defense budget over a period of ten years. Under
14 these budget caps, the Department of Defense budg-
15 et is unchanged from the funding level in fiscal
16 years 2013 and 2014, and remains more than
17 \$30,000,000,000 below the funding provided to the
18 Department in fiscal years 2010, 2011, and 2012.
19 In inflation-adjusted terms, the drop is even greater,
20 with a reduction of \$75,000,000,000 since fiscal
21 year 2010 and virtually no projected growth in infla-
22 tion-adjusted dollars through the balance of the fu-
23 ture-years defense program.

24 (3) If the budget caps remain unchanged for
25 fiscal year 2016 and beyond, the Department of De-

1 fense will be required to make even deeper cuts, in-
2 cluding an additional reduction of 60,000 in the end
3 strength of the Army, the retirement of the entire
4 KC-10 tanker aircraft fleet and the Global Hawk
5 Block 40 fleet, reduced purchases of Joint Strike
6 Fighters and unmanned aerial vehicles, the inactiva-
7 tion of additional naval vessels, reduced purchases of
8 destroyers, and the elimination of an aircraft carrier
9 and a carrier air wing. Senior civilian and military
10 leaders of the Department of Defense have testified
11 that if these additional reductions are carried out,
12 the United States Armed Forces will not be able to
13 carry out the National Defense Strategy.

14 (4) The budget of the President for fiscal year
15 2015 proposes to add \$115,000,000,000 to the
16 budget caps of the Department of Defense for the
17 four fiscal years starting in fiscal year 2016 in order
18 to avoid the need to make the additional cuts de-
19 scribed in paragraph (3). The budget proposes to
20 add an equal amount to the budget caps for the non-
21 defense agencies of the Federal Government in order
22 to ensure that such agencies can continue to meet
23 their obligation to protect and promote public safety,
24 health, education, justice, transportation, the envi-
25 ronment, and other domestic needs.

1 (b) SENSE OF SENATE.—It is the sense of the Senate
2 that—

3 (1) leaving the budget caps described in sub-
4 section (a)(2) for fiscal year 2016 and beyond un-
5 changed would require cuts that would seriously un-
6 dermine the ability of the Department of Defense to
7 carry out its national security mission and reduce
8 the ability of other Federal Government agencies to
9 adequately address non-defense priorities; and

10 (2) Congress should avoid these adverse im-
11 pacts to the national interests of the United States
12 by enacting deficit-neutral legislation to increase the
13 budget caps, offset by a bipartisan comprehensive
14 package.

 15 **TREATY ORGANIZATION.**

16 It is the sense of Congress that the United States
 17 reaffirms and remains committed to the policies enumer-
 18 ated in the Deterrence and Defense Posture Review of the
 19 North Atlantic Treaty Organization, dated May 20, 2012,
 20 including the following statements:

21 (1) “The greatest responsibility of the Alliance
 22 is to protect and defend our territory and our popu-
 23 lations against attack, as set out in Article 5 of the
 24 Washington Treaty. The Alliance does not consider
 25 any country to be its adversary. However, no one

1 should doubt NATO's resolve if the security of any
2 of its members were to be threatened. NATO will
3 ensure that it maintains the full range of capabilities
4 necessary to deter and defend against any threat to
5 the safety and security of our populations, wherever
6 it should arise. Allies' goal is to bolster deterrence
7 as a core element of our collective defense and con-
8 tribute to the indivisible security of the Alliance.”.

9 (2) “Nuclear weapons are a core component of
10 NATO's overall capabilities for deterrence and de-
11 fense alongside conventional and missile defense
12 forces. The review has shown that the Alliance's nu-
13 clear force posture currently meets the criteria for
14 an effective deterrence and defense posture.”.

15 (3) “The circumstances in which any use of nu-
16 clear weapons might have to be contemplated are ex-
17 tremely remote. As long as nuclear weapons exist,
18 NATO will remain a nuclear alliance. The supreme
19 guarantee of the security of the Allies is provided by
20 the strategic nuclear forces of the Alliance, particu-
21 larly those of the United States; the independent
22 strategic forces of the United Kingdom and France,
23 which have a deterrent role of their own, contribute
24 to the overall deterrence and security of the Allies.”.

1 (4) “NATO must have the full range of capa-
 2 bilities necessary to deter and defend against threats
 3 to the safety of its populations and the security of
 4 its territory, which is the Alliance’s greatest respon-
 5 sibility.”.

6 (5) “NATO is committed to maintaining an ap-
 7 propriate mix of nuclear, conventional, and missile
 8 defense capabilities for deterrence and defense to
 9 fulfill its commitments as set out in the Strategic
 10 Concept. These capabilities, underpinned by NATO’s
 11 Integrated Command Structure, offer the strongest
 12 guarantee of the Alliance’s security and will ensure
 13 that it is able to respond to a variety of challenges
 14 and unpredictable contingencies in a highly complex
 15 and evolving international security environment.”.

18 **SEC. 1611. HOMELAND BALLISTIC MISSILE DEFENSE.**

19 (a) FINDINGS.—Congress makes the following find-
 20 ings:

21 (1) The United States has deployed the
 22 Ground-based Midcourse Defense (GMD) system,
 23 with 30 Ground-Based Interceptors (GBIs) currently
 24 in Alaska and California, for defense of the United
 25 States homeland against the threat of limited bal-

1 listic missile attack from nations such as North
2 Korea and Iran.

3 (2) The system has experienced several flight
4 test failures since 2010 involving the deployed Capa-
5 bility Enhancement-I and Capability Enhancement-
6 II Exo-atmospheric Kill Vehicles (EKVs), and the
7 Missile Defense Agency plans to conduct an inter-
8 cept flight test in the summer of 2014 to dem-
9 onstrate corrections to the kill vehicles.

10 (3) The Department of Defense is taking, and
11 planning to take, numerous actions to improve
12 United States homeland ballistic missile defense ca-
13 pabilities over the next decade to keep pace with
14 evolving ballistic missile threats, including the fol-
15 lowing key actions:

16 (A) Deployment of 14 additional Ground-
17 Based Interceptors in Alaska by the end of
18 2017.

19 (B) Improvement of the sensor network
20 that supports homeland ballistic missile defense,
21 including deployment of a new Long-Range Dis-
22 criminating Radar in Alaska.

23 (C) Investment in improvements to the dis-
24 crimination capabilities needed to improve the

1 operational effectiveness and efficiency of the
2 homeland ballistic missile defense system.

3 (D) Re-design of the Exo-atmospheric Kill
4 Vehicle to increase significantly its perform-
5 ance, reliability, cost-effectiveness, and afford-
6 ability.

7 (E) Design and development of a Next
8 Generation Exo-atmospheric Kill Vehicle that
9 will incorporate new technologies and the poten-
10 tial for defeating multiple threat objects with
11 individual interceptors.

12 (b) SENSE OF CONGRESS.—It is the sense of Con-
13 gress that—

14 (1) it is a national priority to defend the United
15 States homeland against the threat of limited bal-
16 listic missile attack from North Korea and Iran;

17 (2) although the currently deployed Ground-
18 based Midcourse Defense system provides protection
19 of the entire United States homeland, including the
20 East Coast, against the threat of limited ballistic
21 missile attack from North Korea and Iran, this ca-
22 pability needs to be improved to meet evolving bal-
23 listic missile threats;

24 (3) the initial step in this process of improve-
25 ment is to correct the problems that caused the

1 flight test failures with the current kill vehicles, and
2 to improve the reliability of the deployed Ground-
3 Based Interceptor fleet;

4 (4) as indicated by senior Department of De-
5 fense officials, investments to enhance homeland de-
6 fense sensor and discrimination capabilities are es-
7 sential to improve the operational effectiveness and
8 shot doctrine of the Ground-based Midcourse De-
9 fense system;

10 (5) given limitations with the currently deployed
11 Exo-atmospheric Kill Vehicles, it is important to re-
12 design the Exo-atmospheric Kill Vehicle using a rig-
13 orous acquisition approach, including realistic test-
14 ing, that can achieve a demonstrated capability as
15 soon as practicable using sound acquisition prin-
16 ciples and practices; and

17 (6) in order to stay ahead of evolving ballistic
18 missile threats, the Department should design the
19 Next Generation Exo-atmospheric Kill Vehicle to
20 take full advantage of improvements in sensors, dis-
21 crimination, kill assessment, battle management,
22 and command and control, including the potential to
23 engage multiple objects.

24 (c) REPORT REQUIRED.—

1 (1) IN GENERAL.—Not later than 180 days
2 after the date of the enactment of this Act, the Sec-
3 retary of Defense shall submit to the congressional
4 defense committees a report setting forth the status
5 of current and planned efforts to improve the home-
6 land ballistic missile defense capability of the United
7 States.

8 (2) ELEMENTS.—The report required under
9 paragraph (1) shall include the following:

10 (A) A description of the status of efforts to
11 correct the problems that caused the flight test
12 failures of the Capability Enhancement-I and
13 Capability Enhancement-II Exo-atmospheric
14 Kill Vehicles.

15 (B) A description of the status of efforts
16 to field the additional 14 Ground-Based Inter-
17 ceptors planned for deployment at Fort Greely,

19 ment of Missile Field 1 at Fort Greely, and the
20 operational impact of the additional intercep-
21 tors.

23 toward improving the capability, reliability, and
24 availability of fielded Ground-Based Intercep-

3 I and Capability Enhancement-II Exo-atmos-
4 pheric Kill Vehicles.

6 ments to homeland ballistic missile defense sen-
7 sor and discrimination capabilities, including an
8 assessment of the expected operational benefits
9 of such improvements to homeland ballistic mis-
10 sile defense.

11 (E) A description of the plans and efforts
12 to redesign, develop, test, and field the Exo-at-
13 mospheric Kill Vehicle for the Ground-based
14 Midcourse Defense system, and an explanation
15 of its expected improvements in capability, cost-
16 effectiveness, reliability, maintainability, and
17 producibility.

18 (F) A description of the plans for devel-
19 oping, testing, and fielding the Next Generation
20 Exo-atmospheric Kill Vehicle, and an expla-
21 nation of how the anticipated capabilities are
22 intended to help keep pace with evolving bal-
23 listic missile threats.

24 (G) Any other matters the Secretary con-
25 siders appropriate.

1 (3) FORM.—The report required under para-
2 graph (1) shall be submitted in unclassified form,
3 but may include a classified annex.

4 **SEC. 1612. REGIONAL BALLISTIC MISSILE DEFENSE.**

5 (a) SENSE OF CONGRESS.—It is the sense of Con-
6 gress that—

7 (1) the regional ballistic missile capabilities of
8 countries such as Iran and North Korea pose a seri-
9 ous and growing threat to United States forward de-
10 ployed forces, allies, and partner countries;

11 (2) given this growing threat, it is a high pri-
12 ority for the United States to develop, test, and de-
13 ploy effective regional missile defense capabilities to
14 provide the commanders of the geographic combat-
15 ant commands with capabilities to meet their oper-
16 ational requirements, and for United States allies
17 and partners to improve their regional missile de-
18 fense capabilities;

19 (3) the United States and its North Atlantic
20 Treaty Organization (NATO) partners should con-
21 tinue the development, testing, and implementation
22 of Phases 2 and 3 of the European Phased Adaptive
23 Approach, to defend United States forward deployed
24 forces, allies, and partners in the North Atlantic

1 Treaty Organization in Europe against the growing
2 regional missile capability of Iran;

3 (4) the United States should continue efforts to
4 improve regional missile defense capabilities in the
5 Middle East, including its close cooperation with
6 Israel and its efforts with countries of the Gulf Co-
7 operation Council, in order to improve regional secu-
8 rity against the growing regional missile capabilities
9 of Iran; and

10 (5) the United States should continue to work
11 closely with its allies in Asia, particularly Japan,
12 South Korea, and Australia, to improve regional
13 missile defense capabilities against the growing
14 threat of North Korean ballistic missiles.

15 (b) REPORT REQUIRED.—Not later than 180 days
16 after the date of the enactment of this Act, the Secretary
17 of Defense shall submit to the congressional defense com-
18 mittees a report setting forth the status and progress of
19 efforts to improve United States regional missile defense
20 capabilities in Europe, the Middle East, and in the Asia-
21 Pacific region, including efforts and cooperation by allies
22 and partner countries.

23 (c) ELEMENTS.—The report required in subsection
24 (b) shall include the following:

1 (1) A description of the status of implementa-
2 tion of the European Phased Adaptive Approach, in-
3 cluding the status of efforts to develop, test, and de-
4 ploy the capabilities planned for Phases 2 and 3 of
5 the European Phased Adaptive Approach.

6 (2) A description of the status of efforts to im-
7 prove the regional missile defense capabilities of the
8 United States and the Gulf Cooperation Council
9 countries in the Middle East against regional missile
10 threats from Iran, including progress toward, and
11 benefits of, multilateral cooperation and data shar-
12 ing among the Gulf Cooperation Council countries
13 for multilateral integrated air and missile defense
14 against threats from Iran.

15 (3) A description of the progress of the United
16 States and its allies in the Asia-Pacific region, par-
17 ticularly Japan, South Korea, and Australia, to im-
18 prove regional missile defense capabilities against
19 missile threats from North Korea.

20 (4) A description of the degree of coordination

2 elements of United States regional missile defense
3 approaches tailored to the specific regional require-
4 ments in the areas of responsibility of the United
5 States Central Command and the United States Pa-
6 cific Command, including the role of missile defense
7 capabilities of United States allies and partners in
8 each region.

9 (6) A summary of the regional missile defense
10 risk assessment and priorities of the commanders of
11 the geographic combatant commands.

12 (7) Such other matters as the Secretary con-
13 siders appropriate.

14 (d) FORM.—The report required by subsection (b)
15 shall be submitted in unclassified form, but may include
16 a classified annex.

17 **SEC. 1613. AVAILABILITY OF FUNDS FOR MISSILE DEFENSE**
18 **PROGRAMS OF ISRAEL.**

19 (a) IN GENERAL.—Except as otherwise provided in
20 this section, of the funds authorized to be appropriated
21 for fiscal year 2015 by section 201 for research, develop-
22 ment, test, and evaluation, Defense-wide, and available for
23 the Missile Defense Agency, \$350,900,000 may be pro-
24 vided to the Government of Israel to procure the Iron
25 Dome short-range rocket defense system as specified in

1 the funding table in section 4201, including for co-produc-
2 tion of Iron Dome parts and components in the United
3 States by United States industry.

4 (b) AVAILABILITY OF AMOUNTS FOR HIGHER PRI-
5 ORITY MISSILE DEFENSE PROGRAMS.—If the Govern-
6 ment of Israel determines that it is a higher priority for
7 its national security, of the amount authorized under sub-
8 section (a), up to \$175,000,000 may be used for the fol-
9 lowing cooperative missile defense programs:

10 (1) The Arrow System Improvement Program.

11 (2) The Arrow-3 Upper Tier interceptor devel-
12 opment program.

13 (3) The David’s Sling short-range ballistic mis-
14 sile defense system.

15 (c) CONDITIONS.—

16 (1) IRON DOME.—Amounts authorized in sub-
17 section (a) to produce the Iron Dome short-range
18 rocket defense program shall be available subject to
19 the terms, conditions, and co-production targets
20 specified for fiscal year 2015 in the “Agreement Be-
21 tween the Department of Defense of the United
22 States of America and the Ministry of Defense of
23 the State of Israel Concerning Iron Dome Defense
24 System Procurement,” signed on March 5, 2014.

1 (2) OTHER MISSILE DEFENSE PROGRAMS.—If
 2 the Government of Israel decides to use amounts au-
 3 thorized in subsection (a) for the cooperative missile
 4 defense programs identified in subsection (b),
 5 amounts for such cooperative missile defense pro-
 6 grams shall be subject to the terms and conditions
 7 of the joint United States-Israel Project Agreements
 8 governing the management and execution of these
 9 cooperative programs.

10 **SEC. 1614. ACQUISITION PLAN FOR RE-DESIGNED EXO-AT-**
 11 **MOSPHERIC KILL VEHICLE.**

12 (a) SENSE OF CONGRESS.—It is the sense of Con-
 13 gress that—

14 (1) the existing models of the Exo-atmospheric
 15 Kill Vehicle of the Ground-based Midcourse Defense
 16 system are prototype designs that were developed
 17 and deployed without robust and rigorous acquisition
 18 practices;

19 (2) consequently, the deployed models of the
 20 Exo-atmospheric Kill Vehicle have experienced flight
 21 test failures since 2010, and have not demonstrated
 22 the degree of reliability, robustness, cost-effective-
 23 ness, or performance that are desirable;

24 (3) the Exo-atmospheric Kill Vehicle for the
 25 Ground-based Midcourse Defense system needs to be

1 re-designed to improve substantially its performance
2 and reliability; and

3 (4) in order to avoid repeating the problems
4 with the designs of the Exo-atmospheric Kill Vehicle,
5 the Department of Defense should follow a robust
6 and rigorous acquisition plan for the design, develop-
7 ment, and testing of the re-designed Exo-atmos-
8 pheric Kill Vehicle.

9 (b) ACQUISITION PLAN REQUIRED.—The Secretary
10 of Defense shall develop a robust acquisition plan for the
11 re-design of the Exo-atmospheric Kill Vehicle of the
12 Ground-based Midcourse Defense system that includes
13 rigorous elements for system engineering, design, integra-
14 tion, development, testing, and evaluation.

15 (c) OBJECTIVES.—The objectives of the acquisition
16 plan required by subsection (b) shall be to ensure that the
17 re-designed Exo-atmospheric Kill Vehicle is operationally
18 effective, reliable, producible, cost-effective, maintainable,
19 and testable.

20 (d) APPROVAL OF ACQUISITION PLAN REQUIRED.—
21 The acquisition plan required by subsection (b) shall be
22 subject to approval by the Under Secretary of Defense for
23 Acquisition, Technology, and Logistics.

24 (e) TESTING REQUIRED.—Prior to operational de-
25 ployment of the re-designed Exo-atmospheric Kill Vehicle,

1 the Secretary shall ensure that it has demonstrated,
2 through successful, operationally realistic flight testing, a
3 high probability of working in an operationally effective
4 manner and that it has the ability to accomplish its in-
5 tended mission.

6 (f) REPORT REQUIRED.—Not later than 60 days
7 after the date on which the Under Secretary of Defense
8 for Acquisition, Technology, and Logistics approves of the
9 acquisition plan under subsection (d), the Director of the
10 Missile Defense Agency shall submit to the congressional
11 defense committees a report describing the acquisition
12 plan and the manner in which it will meet the objectives
13 described in subsection (c).

14 **SEC. 1615. TESTING AND ASSESSMENT OF MISSILE DE-**
15 **FENSE SYSTEMS PRIOR TO PRODUCTION AND**
16 **DEPLOYMENT.**

17 (a) FINDINGS.—Congress makes the following find-
18 ings:

19 (1) The initial acquisition approach to the
20 Ground-based Midcourse Defense system did not fol-
21 low standard acquisition practices, including the “fly
22 before you buy” approach of adequately testing and
23 demonstrating the performance of major defense
24 systems before final production and deployment.

1 (2) Consequently, the Ground-based Midcourse
2 Defense system was deployed in 2004 without any
3 intercept flight tests of the production interceptor
4 and kill vehicle, and was fielded with a prototype ex-
5 perimental design kill vehicle that had not been fully
6 engineered, developed, or tested.

7 (3) In July 2013, the Ground-based Midcourse
8 Defense system had a flight test failure with the ini-
9 tially-deployed Capability Enhancement-I Kill Vehi-
10 cle because the kill vehicle failed to separate from
11 the booster.

12 (4) The upgraded Capability Enhancement-II
13 Kill Vehicle was deployed starting in 2008, prior to
14 any successful intercept flight tests, and it has not
15 had any successful intercept flights test as of May
16 2014.

17 (5) As a result of this highly concurrent acqui-
18 sition approach, the Ground-based Midcourse De-
19 fense system has had a variety of kill vehicle prob-
20 lems that have caused several flight test failures
21 since 2010, which have required more than
22 \$1,300,000,000 and four years of effort to correct.

23 (b) SENSE OF CONGRESS.—It is the sense of Con-
24 gress that—

1 (1) it is a high priority that United States bal-
2 listic missile defense systems should work in an
3 operationally effective and cost-effective manner;

4 (2) prior to making final production decisions
5 for and prior to operational deployment of such sys-
6 tems, the United States should conduct operationally
7 realistic intercept flight testing, which should create
8 sufficiently challenging operational conditions to es-
9 tablish confidence that such systems will work in an
10 operationally effective and cost-effective manner
11 when needed; and

12 (3) in order to achieve these objectives, and to
13 avoid post-production and post-deployment problems
14 like those encountered with the Ground-based Mid-
15 course Defense system, it is essential for the Depart-
16 ment of Defense to follow a “fly before you buy” ap-
17 proach to adequately test and assess the elements of
18 the Ballistic Missile Defense System before final
19 production decisions or operational deployment.

20 (c) SUCCESSFUL TESTING REQUIRED PRIOR TO
21 FINAL PRODUCTION OR OPERATIONAL DEPLOYMENT.—
22 Prior to making a final production decision for, and prior
23 to the operational deployment of, a new or substantially
24 upgraded interceptor or weapon system of the Ballistic

1 Missile Defense System, the Secretary of Defense shall en-
2 sure that—

3 (1) sufficient and operationally realistic testing
4 of the system is conducted to assess the performance
5 of the system in order to inform a final production
6 decision or an operational deployment decision; and

7 (2) the results of such testing have dem-
8 onstrated a high probability that the interceptor or
9 weapon system will work in an operationally effective
10 manner and has the ability to accomplish its in-
11 tended mission.

12 (d) DIRECTOR OF OPERATIONAL TEST AND EVALUA-
13 TION ASSESSMENT.—Prior to any final production deci-
14 sion or operational deployment described in subsection (c),
15 the Director of Operational Test and Evaluation shall—

16 (1) provide to the Secretary the assessment of
17 the Director, based on the available test data, of the
18 sufficiency, adequacy, and results of the testing of
19 such system, including an assessment of whether the
20 system will be sufficiently effective, suitable, and
21 survivable when needed; and

22 (2) provide to the congressional defense com-
23 mittees a written summary of that assessment.

1 **Subtitle C—Space Activities**

2 **SEC. 1621. UPDATE OF NATIONAL SECURITY SPACE STRAT-** 3 **EGY TO INCLUDE SPACE CONTROL AND** 4 **SPACE SUPERIORITY STRATEGY.**

12 space control and space superiority for the protection of
13 national security space assets.

14 (b) ELEMENTS.—The strategy relating to space con-
15 trol and space superiority required by subsection (a) shall
16 address the following:

2 posture.

3 (c) CONSISTENCY WITH SPACE PROTECTION STRAT-
4 EGY.—The Secretary shall, in consultation with the Direc-
5 tor, ensure that the strategy relating to space control and
6 space superiority required by subsection (a) is consistent
7 with the Space Protection Strategy developed under sec-
8 tion 911 of the National Defense Authorization Act for
9 Fiscal Year 2008 (10 U.S.C. 2271 note).

11 (1) IN GENERAL.—Not later than March 31,
12 2015, the Secretary shall, in consultation with the
13 Director, submit a report on the strategy relating to
14 space control and space superiority required by sub-
15 section (a) to—

2 **RITY AND DEFENSE PROGRAM; REPORT ON**
3 **SPACE CONTROL.**

4 (a) ALLOCATION OF FUNDS.—Of the funds author-
5 ized to be appropriated by this Act or any other Act and
6 made available for the Space Security and Defense Pro-
7 gram (PE# 0603830F), a preponderance of such funds
8 shall be allocated to the development of offensive space
9 control and active defensive strategies.

10 (b) STATEMENT WITH RESPECT TO ALLOCATION.—
11 The Secretary of Defense shall include, in the budget jus-
12 tification materials submitted to Congress in support of
13 the budget of the Department of Defense for a fiscal year
14 (as submitted with the budget of the President under sec-
15 tion 1105(a) of title 31, United States Code), a statement
16 with respect to whether the budget of the Department allo-
17 cates funds for the Space Security and Defense Program
18 as required by subsection (a).

19 (c) REPORT.—Not later than 180 days after the date
20 of the enactment of this Act, the Secretary shall submit
21 to Congress a report that contains the following:

22 (1) An updated integrated capabilities docu-
23 ment for offensive space control.

24 (2) A concept of operations for the defense of
25 critical national security space assets in all orbital
26 regimes.

1 (3) An assessment of the effectiveness of exist-
2 ing deterrence strategies.

3 **SEC. 1623. PROHIBITION ON CONTRACTING WITH RUSSIAN**
4 **SUPPLIERS OF CRITICAL SPACE LAUNCH**
5 **SUPPLIES FOR THE EVOLVED EXPENDABLE**
6 **LAUNCH VEHICLE PROGRAM.**

7 (a) IN GENERAL.—The Secretary of Defense may not
8 enter into or renew a contract, on or after the date of
9 the enactment of this Act, for the procurement of property
10 or services for space launch activities under the Evolved
11 Expendable Launch Vehicle program from any person if
12 that person purchases supplies critical for space launch
13 activities covered by the contract from a Russian entity.

14 (b) WAIVER.—The Secretary may waive the prohibi-
15 tion under subsection (a) with respect to a contract for
16 the procurement of property or services for space launch
17 activities if the Secretary determines, and certifies to the
18 congressional defense committees not later than 30 days
19 before the waiver takes effect, that—

20 (1) the waiver is necessary for the national se-
21 curity interests of the United States; and

22 (2) the space launch services and capabilities
23 covered by the contract could not be obtained at a
24 fair and reasonable price without the purchase of

1 supplies critical for space launch activities from a
2 Russian entity.

3 (c) RUSSIAN ENTITY DEFINED.—In this section, the
4 term “Russian entity” means an entity organized under
5 the laws of the Russian Federation or otherwise subject
6 to the jurisdiction of the Russian Federation.

7 **SEC. 1624. ASSESSMENT OF EVOLVED EXPENDABLE**
8 **LAUNCH VEHICLE PROGRAM.**

13 the advisability of the Secretary of Defense requiring,
14 when selecting launch providers for the program using
15 competitive procedures as described in section 2304 of
16 title 10, United States Code, that new entrant launch pro-
17 viders or incumbent launch providers establish or maintain
18 business systems that comply with the data requirements
19 and cost accounting standards of the Department of De-
20 fense, including certified cost or price data.

21 **SEC. 1625. REPORT ON RELIANCE OF EVOLVED EXPEND-**
22 **ABLE LAUNCH VEHICLE PROGRAM ON FOR-**
23 **EIGN MANUFACTURERS.**

24 Not later than 180 days after the date of the enact-
25 ment of this Act, the Comptroller General of the United

1 States shall submit to the congressional defense commit-
2 tees a report on the risks to the Evolved Expendable
3 Launch Vehicle program of reliance on foreign manufac-

6 **SEC. 1631. SENSE OF THE SENATE ON RESOLUTION LIMITS**
7 **ON COMMERCIAL SPACE IMAGERY.**

8 (a) FINDINGS.—Congress makes the following find-
9 ings:

10 (1) The Department of Defense and the secu-
11 rity of the United States depend on the United
12 States commercial space imaging industry for map-
13 ping, intelligence, battle damage assessment, coali-
14 tion warfare, and humanitarian relief.

15 (2) The Department of Defense could benefit
16 from the relaxation of the current limits on the reso-
17 lution of the imagery that the United States com-
18 mercial space imaging industry is permitted to sell
19 because the industry will respond to larger market
20 opportunities by increasing the quantity of space-
21 craft and the quality and diversity of the imagery
22 and imagery-derived products the industry provides.

23 (3) The Department of Defense has a need to
24 protect some places and events from the collection
25 and sale of high-resolution imagery. That need could

1 be met through existing licensing and contractual
2 authorities that either permit the government to ex-
3 ercise direct control of specific collection tasking and
4 image dissemination or to restrict collection.

5 (4) Instead of using the approach described in
6 paragraph (3), the United States commercial space
7 imaging industry has been prohibited from selling
8 imagery over the vast majority of the planet where
9 there are no national security sensitivities.

10 (5) Limits on the resolution of commercial
11 space imaging have been relaxed somewhat in the
12 past, but only when the United States commercial
13 space imaging industry has faced competition from
14 foreign providers of such imaging.

15 (b) SENSE OF THE SENATE.—It is the sense of the
16 Senate that—

17 (1) the Secretary of Defense should support re-
18 laxation, as soon as practicable, of panchromatic,
19 spectral, and infrared imagery resolution limits so
20 that the United States commercial space imaging in-
21 dustry may promptly begin—

22 (A) to attract investment in new satellite
23 capabilities;

24 (B) to design and build new satellites; and

1 (C) to create new processing capabilities,
2 business strategies, and marketing capacity;
3 and

4 (2) the Under Secretary of Defense for Policy
5 should provide a recommendation to Congress by
6 April 1, 2015, on the design and development of a
7 flexible and dynamic capability to control the collec-
8 tion and sale of commercial space imagery to protect
9 national security.
